Description:

Aptly named, Villa Belamour is a delightful one-bedroom villa in Pointe Milou. Commanding idyllic views across the sparkling Caribbean Sea and the nearby islets, it is the ultimate retreat for an unforgettable honeymoon, anniversary, or a week together with none of life's usual distractions.

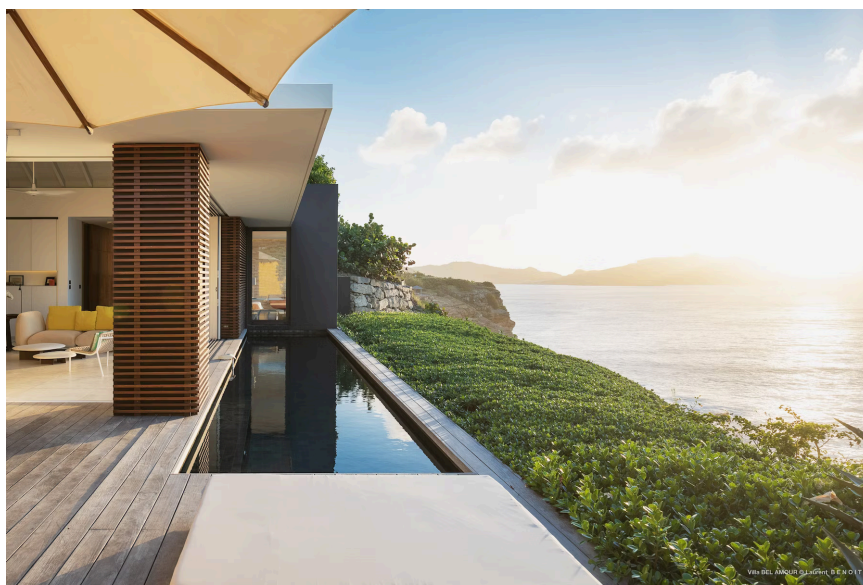

This secluded hideaway is set atop the cliff sides of the northwestern coast, providing all the privacy you need to forget about the outside world. On clear days, you can gaze across the ocean and catch glimpses of St. Martin and Anguilla.

Sophisticated yet with plenty of unique character, the interior of Villa Belamour is a joy to be in. A vibrant mural celebrating 'The Miracle of Love' adorns the dining room wall, created by the esteemed French designer, Jean-Charles de Castelbajac. The open plan layout creates the feeling of spaciousness, while also ensuring that natural sunlight pours through each section of the retreat.

The living room boasts an all-glass wall that retracts to let the cooling sea breezes flow through. From here, you can step right into your private swimming pool or soak up the sunshine from the snug outdoor lounge area. The sunsets from here are absolutely incredible, as the sky sets ablaze and transforms the sea below into shimmering gold.

The beautiful bedroom suite provides a plush king-sized bed shipped all the way from Bali, an oversized bathroom, and a personal dressing room. Another wall of windows allows you to enjoy those stunning ocean views from the moment you wake up in the morning.
